

Math Fun for Young Children Kit

Activities for children 4 -7 and their families

All materials needed for each activity are in labeled bags and are packed in a large, resealable bag with the task card. The organization of the kit make set up and clean up easy and fast.

All materials come packed in 2 Rubbermaid bins.

Leader's Guide (full of hints and helps) and parent newsletter included in each kit.

Parents are given plenty of ideas for things to do at home.

Parent Education is the main goal of Math Fun!

Each task card explains WHY the activity is important and how the learning can continue at home.

These bags are great as backpack activities.

Lots of different kinds of manipulatives help children explore pattern, number sense, operations, logic, measuring, and more.

Activity need crayons? In the kit.
Need literature? In the kit.
Need paper? In the kit.

Task cards and activity cards are laminated for durability.

This isn't just a collection of activities-- it helps parents learn how (and why) to help their children.

Each kit contains all the materials you need for at least 20 families to do every activity at least once. Because this kit was designed to use a minimum of consumables (only paper), it can be used for many sessions without replenishing. Consumable materials can be purchased locally or as "drop-in" refill packs (all in labeled bags) from the Center.
